SWIM Course Info

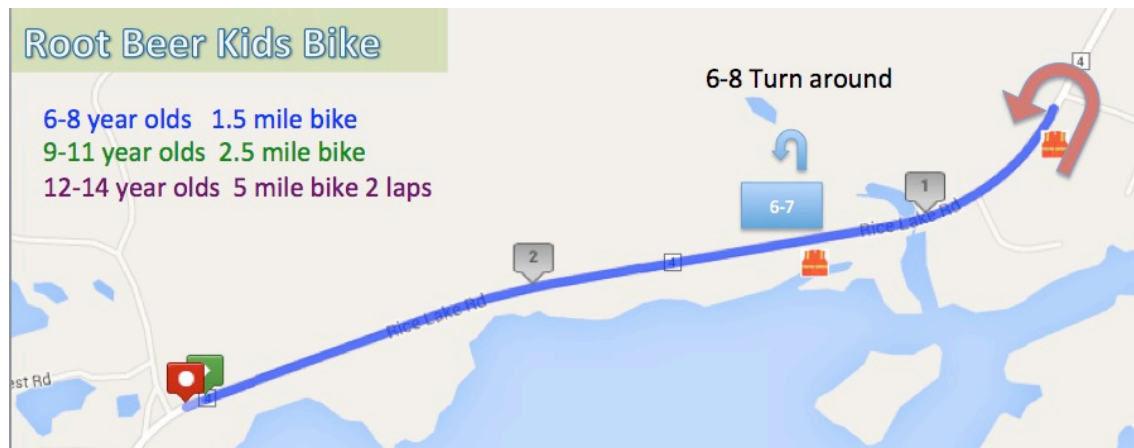

The swim course is set up so that the kids should be able to touch the entire swim. The course will have guards on the outside (deep side) to prevent children from venturing out too far. Kids will exit the water on a mat and run up the tar path on the right side of the beach. Life vests are allowed, but not required, and swim caps are not required.

Bike Course Info

The bike course this year will be closed to cars, and will be an out-and-back stretch on paved roads. The distance each racer will ride depends on his/her age.

- Kids MUST have their helmet on before getting on their bike
- They must walk or run their bike to where someone will tell them to get on their bike
- Racers aged 6-8 will do a 1.5 mile bike ride
- Racers aged 9-11 will do a 2.5 mile bike ride
- Racers aged 12-14 will do a 5 mile ride, or two laps (we will move the turn around point appropriately)

RUN Course Info

After returning to the transition area and parking their bikes the kids will run towards the South side of the transition, down the long tar section towards the beach, up the same place they came out for the swim and then along the lake. They will head out the dirt road and turn around depending on their age.

Race Etiquette & Your Athlete(s)

For the safety and respect of all racers in the Root Beer Kids Triathlon, we ask that you please talk to your racer(s) about riding his/her bike as close to the right side of the road as is safely possible, and to make sure their focus is on the course. If they are not riding steady, other riders cannot see where to go, and it could cause a crash. It is also good practice to call out 'On Your Left' when you are passing another rider.

Please note: If your child is being passed on the bike by another racer, USAT rules state that you must let the rider pass; DO NOT attempt to race the other child.

Parents, please also remember that this is the first triathlon for many of the kids participating, and **everyone** should be encouraged and cheered! We are very proud of all of the athletes that finish - and they are, too! - no matter what their time or place, so please help us keep this a positive and exciting event for everyone.

Good Luck & Have An Awesome Race!

Rod Raymond & Matt Evans, Race Directors
