

Irvine Park Picnic Areas

We decided to map Irvine Park in Chippewa Falls. Irvine Park is huge: It contains animal areas, play areas, and picnic areas. We mapped the picnic areas mainly because guess what? It snowed the day we had our date with GPS! It was cold and quite hazy, and possibly that had something to do

Christy Dillivan Rebecca Thorn

with some poor readings we had. The P-DOP was usually 4.6 with about 4 satellites. When we were mapping the road the P-DOP would go from 2.2 to 7.8 and right back to 2.2 in a couple seconds. We also had some trouble in clear areas with too few SV's. All it took was a little patience, which I don't have, but we got it successfully mapped !
